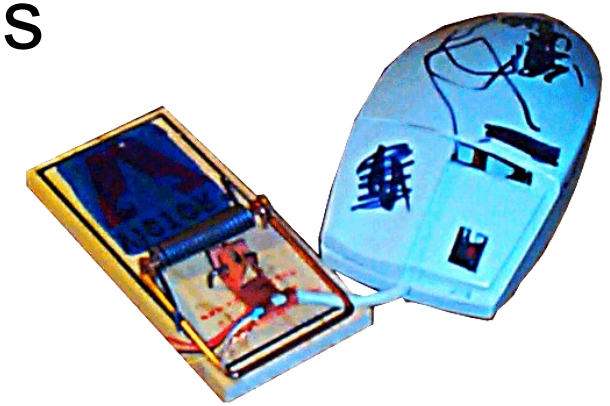
This Segment Summarizes:

- Our Mission
- Our Methods
- Our Materials



Our Purposes:

1. **Show God's Written Word to be as irreplaceable** and timely in our technology driven world today, as it was when written. (as promised in 2nd Timothy 3:16, 17)

2. **Show fun, non-technical ways to use computer trash**, and techniques to share one's faith and message, even by preschoolers, from backyards, basements, and jungle clearings. (as commanded in Matthew 28:19, 20)

3. **Show the terrible neglect of faith-based groups** not using technology beyond just administrative purposes. (evidenced by youth leaving the church)

4. **Accent the service of our silver-haired mentors** as their potential is so terribly under-used in this technology age. (as directed in Job 32:7)

- Youth and young adults today, have never known a world without technology.
- We must add some flavor of technology to reaching out to them.
- But never change the Gospel of Salvation one bit.

- Our Churches are lavished with critical path technology that enhances communication, presentation, and online presence.
- But the God-honoring use of technology is never preached from the pulpit or taught in classrooms.

...in spite of the clear bold fact of scripture...

wise unto salvation
faith which is in Christ Jesus.
16 All scripture is given by
inspiration of God, and is profit-
able for doctrine, for reproof,
for correction, for instruction
in righteousness:
17 That the man of God may
be perfect, throughly furnished
unto all good works.
CHAPTER 4

- **Scripture is critical to our spiritual survival** – not just that we learn it, but understand and apply it. God even gives us the Holy Spirit as our personal teacher.

- **God's inspired word categorizes its areas of application** in 2nd Timothy 3:16 (Rules, testing, discipline, and education.

- **Verse 17 details its range and result** of use.

Church lights get brighter and the music louder,
but their technology displays still ask,

Where Are Our Kids Disappearing To?

Why Our Youth Are Leaving

- 'New' curriculum themes for youth materials seem to always be the same ones used 40+ years ago.
- Theme choices teach youth, the church is in a different dispensation, even though the latest technology equipment is used, (but not taught) even in the smallest churches.
- Because the themes are from long ago, youth believe the Salvation message is no longer applicable to them.
- Somehow the church leaders can't make a distinction between its METHODS and MESSAGE.

- Our church's silver-haired generation feel discarded in this technology frenzy.
- They feel just like an old junk computer that has outlived its usefulness.
- Seniors and trash technology are PERFECT for reaching out to the discarded generation of youth that are crying out, for someone to care.
- Their heart cries are in the forms of odd appearances and actions.

- Youth need to see and experience critical connections between technology and God's timeless word, and message.
- Social networking is EXACTLY what God wants of us as commanded in Matthew 28:19, 20.
- Tons of tweeting examples are listed in scripture. The Bible calls them PROVERBS.
- God gave us scripture and He gave us technology. They are to be used together to magnify Him and His church.

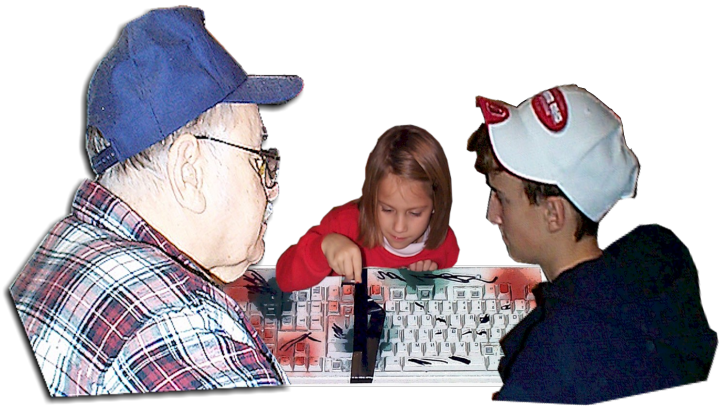
We are unique

because of Evangelism Computing
and the way it promotes seniors
to superior mentoring potential.

Evangelism Computing elevates evangelism above computer operation, skills, and hardware.

Trash pieces of hardware become MORE POWERFUL than when brand new because they are used exclusively as metaphors in sharing one's faith and Bible principles.

Seniors are not intimidated by this 'tech trash' and therefore become thrilled to mentor hurting youth in their 'Golden Years' of silver hair.



Provide Non-technical Tools to Teach Others
Who Will Teach Others Also, 2 Timothy 2:2
